America is a country of choices and I choose XM radio as my provider of traffic and weather information.

Why should I be at the mercy of a local provider (and their commercial schedule) for traffic and weather information when my time is as important to me as I presume you believe your time is to you? XM runs traffic and weather continuously so that I may hear the information I need, when I need it.

I ASK THAT THE FCC REJECT THE NAB'S PETITION 04-160.
